YO SOY MOISÉS DEL VALLE GARCÍA

QA ENGINEER | MANUAL TESTING | UAT | SQL VALIDATION

QA Engineer with hands-on experience supporting enterprise applications across UAT, staging, and production environments. Skilled in manual testing, SQL data validation, production deployment support, and cross-functional collaboration within Agile remote teams. Experienced testing Web, Android, and iOS applications while ensuring deployment stability and business continuity.

EXPERIENCE

QA ENGINEER – GET (GeTechnologies)

Apr 2024 – Oct 2025

Client: Farmacias del Ahorro

- Supported UAT validation and production deployment processes for Farmacias del Ahorro.
- Executed SQL-based data validation across multiple environments (UAT, staging, production).
- Collaborated with development and DevOps teams during release cycles and deployment validation.
- Verified production issues and performed functional testing to ensure business continuity.
- Participated in Agile ceremonies and contributed to quality improvements within the QA process.

QA TEST ENGINEER – SCIO

Sep 2021 – Oct 2023

Client: Aceable

- Executed manual testing on Web, Android, and iOS applications.
- Designed, maintained, and executed test cases using Jira and TestRail.
- Performed data validation and queries in MongoDB using Robo3T.
- Identified, documented, and tracked defects, ensuring timely resolution.
- Collaborated with developers and product teams during sprint cycles and feature releases.

KEY ACHIEVEMENTS

- ✓ Supported production deployment validations for enterprise pharmacy systems.
- ✓ Executed SQL validations that ensured data integrity across multiple environments.
- ✓ Contributed to improving QA processes and test case coverage in Agile teams.
- ✓ Consistently recognized for attention to detail and reliability in release cycles.
